Regulation

R 2018

Please fill your valuable Feedback

1. How do you rate the structure and order of the courses in the curriculum that you have studied in terms of the prerequisite for the forthcoming courses?

Very Good Good Satisfactory Poor

2. Is the content of courses in the syllabus that you have studied in relation to the competencies expected out of the course?

Very Good Good Satisfactory Poor

3. How do you rate the sequence and relevance of the units in the syllabus of the course?

Very Good Good Needs Improvement Poor

4. How do you rate the distribution of Lecture-Tutorial-Practical (L-T-P) components of the contact hours for the courses?

Uniformly Distributed Somewhat Distributed Need Change Not Distributed

5. Rate the volume of syllabus in terms of the load.

Fair Heavy Needs Revision Light

6. How do you rate the elective courses offered with reference to their relevance to the specialization/branch?

Highly Relevant Somewhat Relevant Needs Improvement Irrelevant

7. How do you rate the number of courses having Lab components?

Very Good Good Needs Improvement Poor

8. How do you rate the laboratory components that are designed to focus on domain?

Highly Focused Somewhat Focused Slightly Focused Not at All Focused

9. How do you rate the laboratory experiments with reference to real time applications?

Very Good Good Satisfactory Needs Improvement

10. How do you rate the various value added courses and the new courses offered by the department in emerging technologies?

Very Good Good Average Poor

Any other suggestion(s)

To impart the basic knowledge in the specialization specific courses, training, and internship are needed.
