Submitted to Principal,

Sub: Seeking permission to conduct outreach programme for Students - Reg.

As we have planned to conduct outreach programme for students with the topic of "Product design to development" in our Mechanical Department on 27.11.2021 (Saturday). The expenses towards organizing the program will be around Rs. 1,000/-. For this, we need the financial assistant .So I kindly request you to give permission to organize the outreach program.

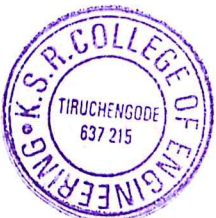

Thanking you

Program Report:

On Saturday, 27th November 2021 the outreach program was organized by Mechanical Engineering Department. The program was scheduled for one day Due to Covid-19 issues. Government School Students are assembled at Mechanical Conference Hall. Mr. P. Saravanan is the in charge of this Outreach program. He acted as the mentor for this year programme. He addressed the students about innovation vs. Invention, Engineering Design Process, and New product development process. After the lunch break, the students visited the facilities availed in the Mechanical Laboratories and Central Library. Feedback from the government school students were received during a formal valedictory function which was arranged at the end of the day.

Respected Sir,

Sub. : Seeking Permission to organize **Outreach Programme** for school students via Google meet – Reg.

To get Engineering knowledge for students in school level .we the faculty Members of Mechanical Engineering are interested to organize outreach programon 19-12- 2020 with the topic of “product development procedures ” on virtual mode through Google meet. So, I kindly request you to give permission toorganize the outreach program.

Thanking You,

Yours Sincerely

(P.Saravanan)

Program Report:

On Thursday, 18th July 2019, the outreach program was organized by mechanical engineering department. Outreach programme was conducted from 18th July for five days for Government School Students. The programme was conducted in the Mechanical Workshop. Mr. P. Saravanan is the in charge of this Outreach program. The programme started and ended formally with an inauguration and valedictory function respectively. The content of the programme mainly deals with five categories. Namely lecture, audio visual, demonstration, hand on training and visit. Lecture hour, mainly inculcate their listening ability and audio – visual classes make them visualize the real world problem solved by a solution. The demonstration classes makes them understand the physical difficulties and hands on training makes them to implement what they have learnt so far. The government school students visited the facilities available in Mechanical Laboratories and Central Library. Feedback from the government school students were received during a formal valedictory function which was arranged at the end of the day.
